International meeting on Mercury Waste Management

Vienna, 10-11 September 2018

PLEASE SAVE THE DATE!

UNIDO, United Nations Industrial Development Organization, cordially invites you to attend the International meeting on Mercury Waste Management

The general purpose of this event is promoting sustainable management of mercury waste. The objectives are to:

- Present the current status of mercury waste management process from different perspectives;
- Facilitate the exchange of knowledge and transfer of technologies between different stakeholders;
- Assess elements of a roadmap towards an integrated approach for the management of mercury and possibly e-wastes;

A selected number of representatives from Governments, the mercury waste management sector, financial institutions, relevant UN agencies, Convention Secretariats and academia are invited.

Venue: UNIDO's HQ, Vienna (Austria)

Registration and program information will be available soon.
